

B2B take-back concept for our products (old devices)

According to EU Directive 2012/19/EU of the European Parliament and of the Council on Waste Electrical and Electronic Equipment (WEEE), there is an obligation to collect waste equipment, treat it in accordance with regulations, dispose of it and finance this.

Electrical and electronic equipment that has become waste is referred to as waste equipment. Owners of waste equipment must dispose of it separately from unsorted municipal waste.

Old appliances should not be disposed of in household waste, but rather in special collection and take-back systems.

This is what the marking with this symbol means:

According to the German Electrical and Electronic Equipment Act (ElektroG, §7a ElektroG), every manufacturer is obliged to provide a reasonable option for the return of old devices.

We offer you the option of returning your old device to us. Proper disposal allows valuable raw materials to be recovered and protects the environment.

The return shipment to us is at the sender's expense. We will cover the costs for recycling or disposal.

For further clarification regarding the return, please contact us, keyword "old device return".

Our address is:
Feinmess Suhl GmbH
Pfüttschbergstraße 11
D-98527 Suhl

Alternatively by email: info@feinmess-suhl.de

We are registered with our take-back concept under **WEEE Reg. No. DE 13968003**.

Note:

Please remove any personal or other data and information (such as privacy-relevant labels) from the device yourself.

Please remove the battery from the battery holder and dispose of it in accordance with the EU Battery Directive.
